

Happy New Year from Unconventional Solutions

Wishing you every happiness this Holiday Season and prosperity in the New Year. Thank you for being our customer. We look forward to continuing our relationship in the coming year.

Energy cost getting the best of you? Looking for ways to save on electricity? Mad about rising utility cost? We can help with our hydrophobic ceramic pump coating to improve efficiency of your pumps up to 14% or better, lowering your electrical consumption. These coatings can also work on valves and pipes to improve flow out put, along with offering a reliable and economical alternative to buying new rotating equipment. See right:

If you would like more details on how our **3M Ceramic Coatings and Engineering Repair Compounds** can improve the efficiency of your pumps, Email our office today at office@unconventionalsolutions.biz to receive a free white paper article or consultation with one of our Technical Sales Experts!

Product of the Month:

In many areas of the Midwest we have had an early snow fall followed by our traditional late December, early January thaw. This spells problems for your roofs. **3M's Seal Tech AW** is the perfect solution for stopping winter time roof leaks. This single component Acrylic Coating is a:

- High performance, all weather, emergency waterproofing coating that is easy to use.
- Outstanding waterproofing and weather proofing properties for any roof surface.
- Excellent on asphalt, bitumen, mineral felt, asbestos cement, concrete & metal in a single application.
- Can be applied in all weather condition including falling rain, down to 32 F
- Go with a winner and give our office a call today! **(248)685-7580**

Success from last year:

Metal Tech PR saved a South Eastern Michigan Drain Commission from lots of lost water on New Year's Day last year. Details below:

As you can see they had 60 psi of water gushing out, and Metal Tech PR saved the day. Do you have enough **3M Metal Tech PR** on your shelf to keep small emergencies from becoming disasters?

Thank you for your business in 2008, and ask how can we do more for you in 2009?

Happy New Year,

Doug Klingensmith
