**Do you have all the Metal-Tech you need to make Miracles in May? If, not call us today, at (248)685-7580 so we can help you make your May Maintenance Budget.**

**Health & Safety Issue:** Did you know Poly-Nox is excellent at encapsulating internal asbestos? Asbestos is hazardous, so you either want to remove it or encapsulate it to keep it from getting air-borne and in your lungs. We can help you with proven systems that work. Just call and we can discuss the details. Poly-Nox can also help you minimize hazardous of sand-blasting or using solvent coating systems with its Water based, Flexible Acrylic Technology. Plus the ease of use can make your coating projects go smoothly, since it can be brushed, rolled or sprayed over manually prepared steel or concrete. SP-2 or SP-3 SSPC Standard.

We will be coating a bridge for Detroit Metro Parks this Summer. They will experience huge cost savings in not having to sandblast the surface, yet still get a high-build, long-term solution. Ask your local technical consultant how this easy to use, long-term coating system can lower your lifecycle cost and protect your capital assets, buildings, and structures. Not sure who to call? Call the office at **(248) 685-7580** and they can put you directly through to person nearest to you.

## Thoughts from the President:

1. May is National Motorcycle Awareness and Bike to Work Month, so be aware of others on the road. Bicycling is a healthy, low impact way to stay in shape, work off a few pounds and work the cardiovascular system. As a motorist don't forget cyclists have the same right to the road as you do. The roads were made for all of us to share. So slow down, keep your eyes open, and enjoy the warm weather. In the Big Picture it is more important to be safe than to get there quickly.

2. Looking to get out and enjoy the warm weather and get some exercise? Walking, running, rollerblading, or biking is not your style? Join us for are annual golf outing on May 29th, at the gorgeous and challenging Mystic Creek Golf Course, in beautiful Camp Dearborn, Michigan. The cost is minimal and if you have been one of our loyal, buying customers you might even be able to talk your local technical consultant in picking up a round of golf.

Join us as we make Miracles in May,

Your Unconventional Solutions Team
